Projects

Cars-R-Us | <https://github.com/xiaojing168jmg168/cars-r-us/> | <https://floating-river-45182.herokuapp.com/>

- Cars-R-Us is a website that allows users to advertise information about a car they wish to sell and provide ways for buyers to contact them about the car.
- **My responsibilities:** Front-end. Built responsive and interactive web pages using Handlebars.js, CSS, and JavaScript. Implemented animation effects using CSS animations to enhance user experience.
- **Technologies:** Handlebars.js, Express, Node, MySQL(Sequelize), Bcrypt and bootstrap.

Tech Blog | <https://github.com/xiaojing168jmg168/tech-blog-mvc> | <https://tech-blog-xiaojing.herokuapp.com/>

- Tech Blog is a website that allows users can freely login and sign up to create new posts. All posts made by the author are editable and can be deleted. Logged in users can leave comments.
- **My responsibilities:** Design, develop and deploy a fully-function website.
- **Technologies:** Model View Controller (MVC), MySQL2, Express, Sequelize, Handlebars and dotenv.
-

8 Red Fish Creative | <https://github.com/xiaojing168jmg168/8-red-fish-creative> (is building)

- 8 Red Fish Creative is a massive E-commerce app from scratch. Implemented features such as user authentication, product listing, search functionality, shopping cart, and checkout using Stripe payment gateway.
- **My responsibilities:** A fully-function website using MERN stack.
- Technologies: React, Context, Node, Express, MongoDB, Mongoose.

Work Experience
